

SmarTone SmartSecure- Managed Next Generation Firewall Services

Big Security for Small and Medium Business

Fast, reliable and secure Internet access is crucial to businesses of all sizes today. SMEs are vulnerable to the same security challenges[#] that the largest enterprises face. However, SMEs are sometimes put off by the cost and complexity of Internet security solutions. SmarTone now offers a simple, robust and cost-effective solution that helps secure Internet access and protect company information from cyber security threats.

Enterprise-Grade Security

- All-in-one protection:
 - Firewall
 - Intrusion Prevention
 - Antivirus
 - Anti-Spam
 - Application Control
 - URL Filtering
 - Email Security
 - VPN
- Policy-based visibility and control over applications, users and contents
- Integrated Wi-Fi security with separate and secure guest access
- Secure remote access to your office network from any laptop or mobile devices

One-Stop Solution

- Security policy advisory
- On-site installation and configuration set up
- 24/7 professional technical support hotline
- Regular security definition updates and software upgrades
- Monthly report of network activities and security events

Easy and Affordable

- No upfront CAPEX investment
- No IT support required
- Simple pricing, one monthly fee
