

Smart Construction Solution

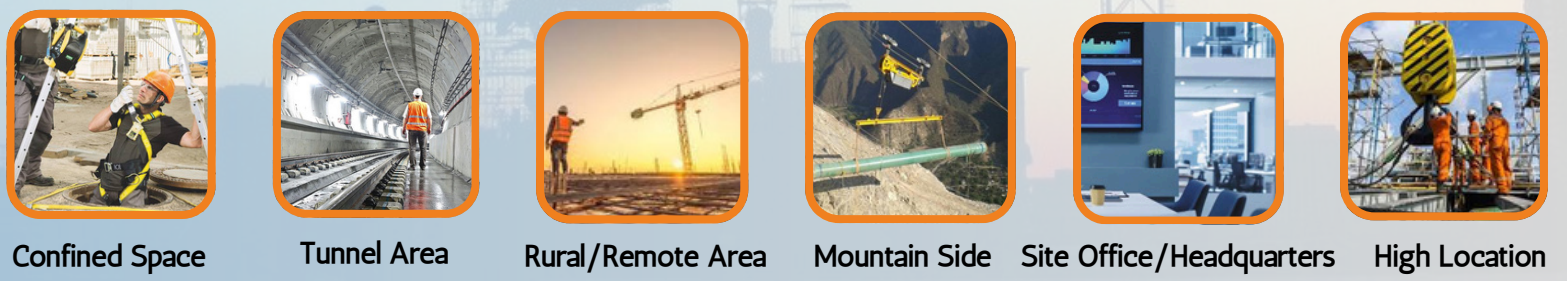

SmartWorks is an award-winning and Construction Innovation and Technology Fund (CITF) pre-approved Smart Site Safety System (4S) solution. It integrates AI technology with IoT devices to facilitate real-time surveillance of workers' safety and site environment, on a centralized platform over 5G and other connectivity technology. It enhances operational and occupational safety while strengthening management efficiency.

Seamless Connectivity and Comprehensive 4S Solutions

- 1 Centralized Management Platform
- 2 Digitized Tracking System for Site Plants, Powered Tools and Ladders
- 3 Digitalized Permit-to-work System for High-risk Activities
- 4 Hazardous Areas Access Control by Electronic Lock & Key System
- 5 Unsafe Acts/ Dangerous Situation Alert - Mobile Plant Operation
- 6 Unsafe Acts/Dangerous Situation Alert - Tower Crane Lifting
- 7 Smart Monitoring Devices for Workers & Frontline Site Personnel
- 8 Safety Monitoring System using Artificial Intelligence
- 9 Confined Spaces Monitoring System
- 10 Safety Training with Virtual Reality Technology

Reliable Coverage for Challenging Sites
